EXPERIENCE

Meesho — *Software Development (Full Time)*
JUL 2022 - ONGOING

- Developing microfrontends
- Testing react applications using react test library and jest.
- Developed a dashboard that poses inhouse solutions to keep a check on the total bundle size for the web application as well as keeps a check on the size of individual chunks.

Juspay — *Software Development Intern*
OCT 2021 - DEC 2021

- Worked on a loan providing platform using existing infrastructure of GEM Sahay app and its integration with Whatsapp API,
- Used functional programming languages, haskell and purescript, to implement the API.

Standard Chartered, Chennai — *Software Development Intern*
MAY 2021 - JULY 2021

- Worked on automating the conversion of printed and scanned receipts into tabular format,
- Developed hybrid model of pyTesseract, TabulaPy, pyPDF and camelot into a single module for optimised output,
- Successfully deployed for company wide usage,
- Also worked on time series analysis for monitoring of employee productivity.

PROJECTS

Divya Drishti

- A monitoring system for patients which sends an alert if a panic attack or something unusual is detected, along with providing live feed.
- Flask , Deep Learning , HTML , CSS , JavaScript were used for development and Vonage API for sending alerts.

Blogging Website

- A website where a user can register, post his blogs,update his profile, like and comment on any post.
- Java is used in backend along with MySQL database and HTML, CSS, JavaScript is used for frontend.

Corobuster

- A directory busting tool to find hidden pages similar to Dirbuster and Gobuster.
- Can also be used to find hidden files with specific extensions.
- Developed in Python2.7 but is compatible with other versions.

EDUCATION

Indian Institute of Technology (ISM), Dhanbad — *Bachelor of Technology in Mechanical Engineering*
JULY 2018 - MAY 2022   **CGPA – 8.13**

Chinmaya Vidyalaya, Bokaro
12th - APRIL 2016 - APRIL 2017 - **91.6%**

MK DAV Public School, Daltonganj
10th - APRIL 2014 - APRIL 2015 - **9.8CGPA**

SKILLS

- **Strong :** C++ | Data Structures and Algorithm| JavaScript | React Js | Next Js | TypeScript | OOPS | HTML | CSS | Operating System | Computer Networking | Leadership | Communication
- **Intermediate:** Python | React Native | Cyber Security | Bootstrap | Linux

COMPETITIVE PROGRAMMING

- **Leetcode**: Rating - **2161**, Problem Solved - 710+
- **CodeChef**: Rating - **1903**, Problem Solved - 100+
- **Geeksforgeeks** : Problem Solved - 150+

ACHIEVEMENTS

- aXess Lab Hackathon **2nd runner up**
- State **Rank 2** in JCECE 2018 (Jharkhand Combined Entrance Competitive Examination Board)
